

Utah DSM:

Thank you for choosing Ziptie Dynowerks for your Dyno Day. In order to make things run more smoothly, there are a few things that we require from the organizer and participants of the event.

- We define a dyno day as a group of 5 or more people who want a baseline on their vehicle at the same time to determine the horsepower and torque of their vehicle. If your group is looking for something else, please let us know. We have many different options for a group to choose from to ensure that your experience fits the needs of your group.
- All participants will need to fill out the following forms either before (preferred) or on the dyno day. All forms will be emailed with the letter to the organizer of the event. They are as follows:
 - Customer forms
- The rate for a baseline will be \$60 (with tax already included) for all participants with the group. There will be \$10 off for all participants who register and pay early. This is so we can group vehicles together to make the day run more smoothly.
 - We will post a list which displays the order in which the participating cars will be run.
 - We ask that all participants follow this list, but we are willing to make adjustments as needed.
 - All participants who pre-register **will** run on the dyno day.
 - Participants who did not pre-register will not be guaranteed to run on dyno day
 - Pre-registration **ends 24 hours before** the beginning of the dyno day.
- There will be **NO** tuning allowed during the dyno day. If participants want to tune we have the following options available for the group organizer to decide:
 - The week before the dyno day, participants of the dyno day will be offered up to 2 hours of discounted tuning time.
- Group tuning rates are available for multiple vehicles who would like to tune at the same time.
- Please assume that we will not have any of the following at our location.
 - Tools
 - Oil
 - Water/Coolant
 - Food
 - Drinks
 - Tables
 - Seats
 - Ear Plugs
 - Paper Towels
- If there are items that are needed, please let us know in advance.

If you have any further questions or concerns, please feel free to contact us. We appreciate your business and look forward to hosting an enjoyable event for your group.
